6 - 9 May 2014

ICR 2014 Oncology Program

Basic level

1. Pediatric Oncology
2. Neuroblastoma
3. Urogenital tumors in childhood
4. Other pediatric oncology topics
5. Colorectal cancer staging and post-treatment follow-up
6. Difficult liver lesions in patients with cancer

Advanced level

7. Integrating morphologic and functional imaging in response assessment
8. Prostate cancer imaging
9. Post-treatment imaging of prostate cancer
10. Whole body diffusion MRI
11. Advance molecular and functional Breast MRI
12. MRI guided high intensity focused ultrasound ablation of breast cancer
13. Pelvic cancer recurrence: the role of the radiologist
14. Imaging in lymph nodes staging
15. Staging esophageal cancers
16. Staging gastrointestinal cancers
17. Screening for lung cancer
18. Staging lung cancer
19. Imaging follow-up of lung cancer
20. RECIST, PERCIST, WHO and irRC (immune related)
21. Cervical nodal metastases of unknown primary
22. How to approach the No and N+ neck and oral cavity cancer
23. Imaging of post-therapeutic head and neck tumors

ICR-Chairman of the program Committee
Wahid Tantawy, MD
Professor of Radiology
Ain Shams University
Cairo, Egypt

ISR-chairman of the program Committee
Luis Martí-Bonmati, MD
Director del Área de Imagen Médica
Hospital Universitario y Politécnico La Fe
Profesor Titular de Radiología
Universidad de Valencia
